ABOUT

The **Tiger With LED Flying Insect Trap** is an eco-friendly, professional grade solution for flying insect control. It eliminates pests without insecticides or toxins, ensuring safety for humans and the environment. Equipped with a quiet motor, automatic shut off system, and a **CATCH AND RELEASE FUNCTION**, it gently traps insects without killing them, allowing for a humane and hygienic pest control approach. Ideal for residential and commercial use, it covers up to 100 sqm indoors with durable, high quality construction.

TRAPPEN

TIGER WITH LED FLYING INSECT TRAP

TECHNICAL SPECIFICATIONS

- Dimensions: 27.0 × 16.5 × 38.0 cm
- Power: 230 V, 12 Watts
- Coverage Area: Up to 100 sqm indoors
- Material: Premium grade plastic

WHAT'S IN THE BOX

- 1x Tiger With LED Flying Insect Trap
- 1x Manual

WHITE LABEL CUSTOMIZATION

- **Minimum Order Quantity:** 460 pcs | 8 Pallets
- **Customizable Features:**
 - Logo Placement
 - Packaging Design
 - Branding & Design

KEY FEATURES

- **Exceptional Catch Rate:** Effectively attracts and captures wasps and other flying insects, ensuring a pest free environment.
- **Hygienic and Chemical Free Operation:** Provides insect control without toxins or insecticides, ideal for food sensitive areas and eco-conscious users.
- **Advanced Motor Technology:** Features the latest quieter motor generation and automatic shut off system, introduced in 2024, for silent and efficient operation.
- **Wide Coverage Area:** Covers up to 100 sqm indoors, making it suitable for large spaces.
- **Versatile and Durable Design:** Made from high quality plastic with components like a protective grid, drawer, and stand base for enhanced functionality.

APPLICATIONS

- **Food Industry:** Perfect for restaurants, bakeries, and food processing facilities.
- **Commercial Use:** Ideal for offices, retail stores, and warehouses.
- **Residential Use:** Suitable for homes that need efficient and discreet insect prevention.

Why Choose the Tiger With LED Flying Insect Trap?

The Tiger With LED Flying Insect Trap combines innovative design, hygienic operation, and advanced technology to deliver effective, eco-friendly insect control. Its reliability, silent operation, and wide coverage make it a top choice for both residential and commercial settings.

The **E-Cat Ultrasound 900 Automatic** is a state of the art pest control device designed to provide effective, chemical free protection against rodents and crawling insects. Using advanced ultrasonic technology, this innovative device ensures a pest free environment while remaining safe for humans, pets, and electronic devices. With its reliable and eco-friendly design, the E-Cat Ultrasound 900 Automatic is the perfect solution for homes, businesses, and industrial spaces.

TRAPPEN

E-CAT ULTRASOUND 900 AUTOMATIC

TECHNICAL SPECIFICATIONS

- Brand: Trappen di Lorenzo Palma
- Dimensions: 235 x 70 x 75mm
- Weight: 420g
- Power Supply: 230V, 50Hz, 3 Watts
- Coverage: Indoors (60–80m²), Outdoors (approx. 40m²)

WHAT'S IN THE BOX

- 1 x E-Cat Ultrasound 900 Automatic
- 1 x Manual

WHITE LABEL CUSTOMIZATION

- **Minimum Order Quantity:** 1,000 pcs
- **Customization Details:**
 - Logo Placement
 - Color Options
 - Packaging Design

KEY FEATURES

- **Advanced Ultrasonic Technology:** Operates with variable frequencies (20,000–60,000 Hz) to prevent pests from adapting, producing up to 130 decibels of sound pressure to disrupt pests' nervous systems for quick elimination.
- **Chemical Free and Eco-Friendly:** Eliminates pests without harmful chemicals or toxins, ensuring the safety of humans, pets, and the environment.
- **Flexible Application:** Covers up to 80m² indoors and 40m² outdoors, with the option to mount on walls or place on floors for optimal performance (recommended 3 cm above ground).
- **Hygienic and Certified:** HACCP certified for use in sensitive environments like the food industry.
- **Durable and Reliable:** Built to high standards and supported by a 4 year warranty (excluding light bulbs).

APPLICATIONS

- **Residential Spaces:** Protect your home from mice, rats, ants, and cockroaches.
- **Food Industry:** Ideal for restaurants, grocery stores, bakeries, and storage areas.
- **Commercial and Industrial Use:** Perfect for warehouses, basements, and other large areas prone to pest infestations.

Why Choose the E-Cat Ultrasound 900 Automatic?

The E-Cat Ultrasound 900 Automatic seamlessly blends innovative technology with eco-conscious design, ensuring safe, effective, and sustainable pest control. Its robust ultrasonic system, broad coverage, and user friendly features make it an indispensable tool for maintaining clean, pest free environments.

ABOUT

The **Mozzie Tag** by INSECTECH is an innovative, portable mosquito control device designed to protect you wherever you go. Combining advanced anion technology with a compact and versatile design, the Mozzie Tag purifies the air and creates a safe space free from mosquito bites. Wear it as a bracelet or hang it in your surroundings for continuous protection without chemicals or toxins.

INSECTECH

MOZZIE TAG

TECHNICAL SPECIFICATIONS

- Brand: INSECTECH
- Size: Approx. 4 x 1.5 x 5 cm
- Input: DC5.0V/1.0A
- Rated Power: <1W
- Effective Range: Approx. 1-2 m² (depending on usage)
- Material: Plastic

WHAT'S IN THE BOX

- 1 x Mozzie Tag
- 1 x Bracelet
- 1 x Lanyard
- 1 x USB-C Charging Cable
- 1 x Manual

WHITE LABEL CUSTOMIZATION

- **Minimum Order Quantity:** 1000 pcs
- **Customizable Features:**
 - Logo Placement
 - Color Customization (Black & White only)
 - NFC & GPS Integration

KEY FEATURES

- **Advanced Anion Technology:** Emits anions that purify the air and neutralize odors, creating an environment that signals danger to mosquitoes. Causes mosquitoes to land and remain stationary, preventing bites without repelling or harming them.
- **Dual Functionality:** Versatile design allows you to wear it as a bracelet or hang it for stationary use, providing flexibility for various settings.
- **Eco-Friendly and Chemical Free:** Offers safe mosquito control without the use of harmful chemicals or toxins, ensuring it is safe for all ages.
- **Portable and Convenient:** Lightweight design makes it easy to carry, wear, or hang wherever needed.
- **Charging Port:** USB-C charging cable provides quick and convenient recharging.
- **Health Benefits:** Anions contribute to improved air quality, much like the refreshing effects of air near a waterfall or after a thunderstorm.

APPLICATIONS

- **Personal Use:** Wear it on your wrist or hang it near your workspace for continuous mosquito protection.
- **Travel Companion:** Perfect for outdoor activities, camping trips, or mosquito prone travel destinations.
- **Home Use:** Ideal for small indoor areas like bedrooms, kitchens, or patios.

Why Choose the Mozzie Tag?

The Mozzie Tag offers a revolutionary, eco-friendly approach to mosquito control. With optional NFC and GPS technology, it combines advanced functionality with sustainable, non-toxic protection, making it the perfect choice for modern, personal mosquito defense.

ABOUT

The **Mosquito Lamp** is a patented, eco-friendly mosquito deterrent that provides safe and effective protection without harming insects. Utilizing innovative yellow light technology and ultrasonic-like frequency tones, this compact and portable device helps maintain a mosquito-free environment in both indoor and outdoor spaces. Its chemical-free operation makes it a sustainable and environmentally friendly pest control solution, ideal for homes, travel, and outdoor use.

INSECTECH

MOSQUITO LAMP

TECHNICAL SPECIFICATIONS

- Effective Range: Up to 10m²
- Light Frequency Range: 570-590 nm
- Color Temperature Options: 2200K (Warm) / 6500K (Cool)
- Power Source: Rechargeable Lithium-Ion Battery
- Charging Interface: USB Micro
- Lighting Modes: High / Low
- Material: ABS plastic with impact resistance, Metal Hook, Magnet
- Size: Diameter 95 x 50 mm
- Weight: 220 g
- WEEE Reg. No.: DE 33439679

WHAT'S IN THE BOX

- 1 x Mosquito Lamp
- 1 x USB Micro Charging Cable
- 1 x User Manual

WHITE LABEL CUSTOMIZATION

- **Minimum Order Quantity:** 460 pcs | 8 Pallets
- **Customizable Features:**
 - Logo Placement
 - Packaging Design
 - Color Options
 - Branding & Design

KEY FEATURES

- **Innovative Light Technology:** The yellow light creates the illusion of absolute darkness for mosquitoes, forcing them into a "blind flight" and encouraging them to settle.
- **Ultrasonic Like Frequency Tones:** Electrical vibrations simulate strong wind and predator sounds (e.g., bats), creating an environment that feels dangerous for mosquitoes.
- **Eco-Friendly and Humane:** Protects mosquitoes and the environment while preventing bites, offering a chemical free and sustainable solution.
- **Compact and Portable Design:** Lightweight with a metal hook and magnet for flexible placement in various spaces.
- **USB Powered:** Convenient USB charging ensures portability and ease of use in any location.

APPLICATIONS

- **Home Use:** Ideal for bedrooms, kitchens, and small living spaces, ensuring a mosquito-free environment.
- **Outdoor Use:** Perfect for patios, camping trips, and outdoor gatherings, offering both mosquito protection and ambient lighting.
- **Travel Companion:** Compact and portable, making it a convenient on-the-go mosquito repellent for hotels and travel destinations.

Why Choose the Mosquito Lamp?

The InsecTech Mosquito Lamp offers a safe, effective, and eco-friendly solution for repelling mosquitoes without the use of chemicals or harmful substances. By combining innovative light and sound technology, it protects indoor and outdoor spaces while doubling as a versatile, energy-efficient lighting source. Whether at home, while traveling, or outdoors, this multi-functional device ensures comfort, convenience, and peace of mind.

ABOUT

The **Repeller With Oil** combines advanced ultrasonic technology with natural mosquito protection, offering a highly effective and portable solution for keeping insects at bay. Designed for use at home or on the go, this sleek device ensures up to eight hours of continuous runtime and doubles as a stylish night light. With its eco-friendly and chemical free operation, the Repeller With Oil is a must have for families seeking reliable and safe pest control.

INSECTECH

REPELLER WITH OIL

TECHNICAL SPECIFICATIONS

- Power Source: USB powered
- Effective Range: Covers up to 20m²
- Runtime: Up to 8 hours with automatic shutdown
- Capacity: Holds up to 350ml of water for oil diffusion
- Material: ABS/PP/Silica Gel

WHAT'S IN THE BOX

- 1 x Repeller
- 1 x USB Cable
- 1 x 10ml Oil (Mozzie or Wasp Oil)
- 1 x Manual

KEY FEATURES

- **Advanced Ultrasonic Technology:** Creates a sound barrier that effectively deters mosquitoes and other insects without harmful chemicals.
- **Eco-Friendly Operation:** Utilizes natural mozzie oil for safe, chemical free protection suitable for children and pets.
- **Portable and Versatile:** Compact and USB powered, perfect for use at home, while traveling, or outdoors.
- **Stylish and Functional Design:** Modern aesthetics paired with a built in multi color night light for added ambiance.
- **Safe and Convenient:** Features a leak proof design and automatic shutdown for ease of use and safety.

APPLICATIONS

- **Home Protection:** Keep your family safe from insects in bedrooms, living rooms, or kitchens.
- **Outdoor Use:** Perfect for patios, camping trips, or picnics.
- **Travel Companion:** Compact and USB powered for easy use anywhere.

Why Choose the Repeller With Oil?

The Repeller With Oil combines modern ultrasonic technology with eco-friendly oil protection, offering portable, stylish, and effective pest control. Its chemical free operation ensures safety for all ages, while its compact design makes it suitable for various environments.

ABOUT

The **Insectech AirGuard** is a state-of-the-art, multifunctional air purifier designed to deliver comprehensive air purification through advanced filtration, anion purification, and UV-C sterilization technology. Engineered for optimal indoor air quality, it effectively eliminates airborne pollutants, allergens, bacteria, and viruses, ensuring a cleaner and healthier environment.

With intelligent air quality monitoring, ultra-quiet operation, and a portable rechargeable design, the Insectech AirGuard is an ideal solution for homes, workplaces, educational institutions, and other shared spaces.

INSECTECH

INSECTECH AIRGUARD

TECHNICAL SPECIFICATIONS

- Coverage Area: Up to 30m²
- Battery Capacity: 4000mAh, rechargeable (up to 12 hours of operation)
- Filtration System: Nylon Pre-Filter, HEPA 11 Filter, Activated Carbon Filter
- UV-C Protection: 3x UV-C lamps (254 nm wavelength) for bacteria & virus elimination
- Anion Output: >5,000,000 pcs/cm³ for enhanced air purification
- Charging Interface: USB Type-C (fast charging support)
- Display: HD digital screen with real-time air quality monitoring

WHAT'S IN THE BOX

- 1 x Insectech AirGuard Air Purifier (with filter)
- 1 x Type-C Charging Cable
- 1 x Manual

KEY FEATURES

- **Advanced Multi-Layer Filtration System:** A combination of pre-filter, HEPA, and activated carbon filters removes dust, allergens, and harmful pollutants.
- **Negative Ion Purification:** Releases over 5 million negative ions/cm³ to neutralize airborne particles and improve air quality.
- **UV-C Light Sterilization:** Integrated 254 nm UV-C lamps destroy bacteria, viruses, and mold without producing harmful ozone.
- **Intelligent Air Quality Monitoring:** Built-in sensors continuously track air quality, temperature, and humidity for real-time adjustments.
- **Quiet and Energy-Efficient Operation:** Brushless motor technology ensures near-silent performance with low power consumption (4W).
- **Portable and Rechargeable Design:** A 4000mAh battery provides up to 12 hours of cordless use, with USB Type-C fast charging.
- **Customizable Operation Modes and Timer Function:** Choose from Low, High, or Auto Mode, with timer options for 1H, 3H, or 5H for tailored purification.

APPLICATIONS

- **Workspaces:** Enhances indoor air quality, promoting employee well-being and productivity.
- **Educational Institutions:** Reduces airborne allergens and bacteria, fostering a healthier learning environment.
- **Residential Spaces:** Ensures a safe and clean living environment by removing dust, allergens, and harmful pathogens.
- **High-Traffic & Shared Areas:** Perfect for offices, kitchens, waiting rooms, and public spaces to maintain fresh and purified air.

Why Choose the Insectech AirGuard?

The Insectech AirGuard integrates cutting-edge air purification technologies in a sleek, compact, and portable design. By combining HEPA filtration, negative ion purification, and UV-C sterilization, it effectively eliminates airborne contaminants, ensuring a safer and healthier indoor environment.

With its intelligent monitoring system, ultra-quiet operation, and long-lasting battery, it is the optimal choice for those seeking professional-grade air purification for homes, offices, and travel.

ABOUT

The **MOZZIE GUARD BUNDLE** x6 Cans w/ mozzie Oil provides a complete and eco-friendly solution for mosquito and biting insect control. This bundle includes six Mozzie Guard cans infused with a unique essential oil blend and a bottle of Mozzie Oil for extended protection. Manufactured exclusively in Germany under strict quality standards, the Mozzie Guard Bundle ensures premium performance and natural mosquito defense for all your outdoor activities.

INSECTECH

MOZZIE GUARD BUNDLE

X6 CANS W/ MOZZIE OIL

TECHNICAL SPECIFICATIONS

- Brand: INSECTECH
- Size: Diameter approx. 8 cm
- Compatibility: Refillable with Mozzie Oil
- Eco-Friendly: Biodegradable and chemical free
- Manufactured: Germany

WHAT'S IN THE BOX

- 6 x Mozzie Guard Cans
- 1 x Mozzie Oil (10ml)
- 1 x Manual

WHITE LABEL CUSTOMIZATION

- **Minimum Order Quantity:** 5000 pcs
- **Customizable Features:**
 - Logo Placement
 - Branding & Design
 - Packaging Design

KEY FEATURES

- **Natural and Safe Formula:** Crafted with a secret blend of essential oils, ensuring chemical free and eco-friendly mosquito control.
- **Bundle Value:** Includes six reusable Mozzie Guard cans and one Mozzie Oil bottle for extended use and convenience.
- **Manufactured in Germany:** Produced under stringent quality standards for maximum reliability and safety.
- **Versatile and Reusable:** Easy to use, refillable cans offer a sustainable and cost effective alternative to single use products.
- **Effective Coverage:** Each can effectively repels mosquitoes and biting insects for at least one outdoor session when used properly.

USAGE INSTRUCTIONS

- **Set Up the Cans:** Open a Mozzie Guard can only when required to maintain its effectiveness and place it strategically for optimal mosquito coverage, avoiding direct sunlight or water exposure.
- **Refill with Mozzie Oil:** Use the included mozzie Oil to refresh the cans, extending their usability and performance.
- **Storage:** Keep unused cans sealed in a cool, dry place to preserve the integrity of the formula.

APPLICATIONS

- **Outdoor Activities:** Ideal for picnics, barbecues, and camping.
- **Commercial Spaces:** Perfect for cafes and outdoor dining areas.
- **Home Use:** Suitable for gardens, patios, and balconies.

Why Choose the Mozzie GUARD BUNDLE?

The Mozzie GUARD BUNDLE x6 Cans w/ Mozzie Oil offers an eco-friendly, effective, and value packed solution for keeping mosquitoes at bay. With reusable cans and refillable oil, this bundle ensures long term protection while minimizing environmental impact.

- 1 x Manual

KEY FEATURES

- **Durable Construction:** Built with high-quality bearings for extended lifespan and reliable operation.
- **Precise Compatibility:** Specifically designed to fit seamlessly into the Tiger With LED Flying Insect Trap.
- **Smooth & Quiet Performance:** Operates with minimal noise for a discreet and efficient insect control experience.
- **Energy Efficient:** Uses minimal power while maintaining high effectiveness.
- **Easy Installation:** Designed for quick and hassle free replacement, ensuring minimal downtime.

USAGE INSTRUCTIONS

- **Power Off:** Unplug the Tiger With LED Flying Insect Trap before replacing the motor.
- **Disassemble:** Remove the outer casing and disconnect the old motor.
- **Replace:** Install the new Tiger Replacement Motor, ensuring all connections are properly secured.
- **Reassemble:** Put the casing back in place and secure any screws or fasteners.
- **Test:** Plug in the device and confirm the motor operates smoothly and quietly.

APPLICATIONS

- **Replacement Part:** Ideal for maintaining the functionality of your Tiger Trap.
- **Device Maintenance:** Ensures continuous performance of the Tiger With LED Flying Insect Trap.

Why Choose the Tiger Replacement Motor?

The Tiger Replacement Motor is the ideal solution for ensuring your device continues to deliver consistent and effective pest control. Built for durability and precision, this spare part minimizes downtime and maintenance efforts, making it an essential investment in the longevity and performance of your insect trap.

ABOUT

The **Tiger Replacement LED** is an advanced LED ring lamp designed to maintain and enhance the performance of the Tiger With LED Flying Insect Trap. Featuring actinic technology, this replacement LED ensures superior insect attraction and long lasting performance.

SPARE PARTS

TIGER REPLACEMENT LED

TECHNICAL SPECIFICATIONS

- Brand: Trappen di Lorenzo Palma
- Type: LED Ring Lamp
- Power Supply: 230V, 13 Watts
- Lifespan: 6,000–7,000 hours
- Average Lifespan: 6,000–7,000 hours
- Compatibility: Exclusively designed for the Tiger With LED Flying Insect Trap

WHAT'S IN THE BOX

- 1 x Tiger Replacement LED
- 1 x Manual

KEY FEATURES

- **Enhanced Insect Attraction:** Actinic LED element optimally attracts and eliminates flying insects with superior efficiency.
- **Long Lasting Performance:** Average lifespan of 6,000–7,000 hours, reducing the need for frequent replacements.
- **Energy Efficient Design:** Low power consumption provides eco-friendly, cost effective operation.
- **Easy Installation:** User-friendly design allows for quick and hassle free replacement.
- **Durable Construction:** High quality plastic ensures reliability and long term use.

USAGE INSTRUCTIONS

- **Turn Off:** Switch off and unplug the Tiger With LED Flying Insect Trap before proceeding.
- **Remove:** Carefully detach the existing LED ring from its socket.
- **Insert:** Align the new Tiger Replacement LED with the socket and gently secure it in place.
- **Test:** Power on the device to confirm the LED is working correctly.
- **Maintain:** Replace every 6,000 to 7,000 hours for continued high performance.

APPLICATIONS

- **Replacement Part:** Ideal for maintaining the functionality of your Tiger Trap.
- **Device Maintenance:** Ensures continuous performance of the Tiger With LED Flying Insect Trap.

Why Choose the Tiger Replacement LED?

The Tiger Replacement LED ensures optimal insect attraction and long-lasting performance. With its energy efficiency and easy installation, it's an essential component for keeping your insect trap working at peak efficiency.

ABOUT

The **Tiger Drawer** is a premium replacement accessory designed to maintain the hygiene and efficiency of the Tiger With LED Flying Insect Trap. Made from durable plastic, this drawer allows for easy insect disposal and ensures the trap remains in top working condition.

SPARE PARTS

TIGER DRAWER

TECHNICAL SPECIFICATIONS

- Brand: Trappen di Lorenzo Palma
- Dimensions: Standard fit for Tiger LED Trap
- Material: Durable plastic
- Compatibility: Tiger With LED Flying Insect Trap
- Weight: Lightweight for easy handling

WHAT'S IN THE BOX

- 1 x Tiger Replacement Drawer
- 1 x Manual

KEY FEATURES

- **Hygienic Operation:** Facilitates clean and efficient disposal of trapped insects.
- **Durable Material:** Constructed from high quality plastic for long term reliability.
- **Easy to Replace:** Designed for quick and user-friendly installation.
- **Perfect Compatibility:** Tailored specifically for the Tiger With LED Flying Insect Trap.
- **Lightweight Design:** Portable and easy to handle.

USAGE INSTRUCTIONS

- **Remove:** Pull out the used drawer carefully from the bottom of the Tiger With LED Flying Insect Trap.
- **Dispose:** Empty the contents hygienically to maintain cleanliness.
- **Clean:** Wash the drawer with mild soap and water, ensuring it is completely dry before reinserting.
- **Replace:** Slide the Tiger Drawer back into its designated slot until it locks in place.
- **Check:** Ensure smooth operation and proper fit for optimal performance.

APPLICATIONS

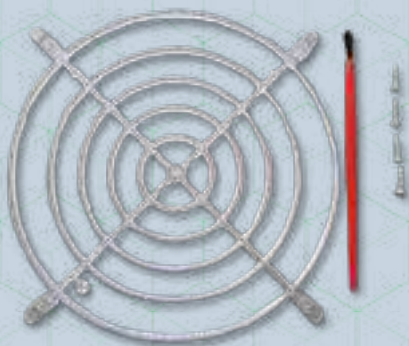

- **Replacement Part:** Ideal for maintaining the functionality of your Tiger Trap.
- **Device Maintenance:** Ensures continuous performance of the Tiger With LED Flying Insect Trap.

Why choose Tiger Drawer?

The Tiger Drawer is an essential component for keeping your insect trap in hygienic condition. Its durable construction and ease of use make it a reliable and necessary replacement part for optimal trap efficiency.

ABOUT

The **Tiger Protective Grid** by Trappen di Lorenzo Palma enhances the safety and durability of your Tiger With LED Flying Insect Trap. Designed to protect the UV light tubes and to make the propeller tunnel safer while maintaining optimal performance, this accessory ensures long lasting reliability and easy maintenance.

SPARE PARTS

TIGER PROTECTIVE GRID

TECHNICAL SPECIFICATIONS

- Brand: Trappen di Lorenzo Palma
- Dimensions: Standard fit for Tiger LED Trap
- Material: Durable plastic
- Compatibility: Tiger With LED Flying Insect Trap
- Weight: Lightweight for easy handling

WHAT'S IN THE BOX

- 1 x Tiger Protective Grid
- 4 x Screws
- 1 x Cleaning Brush
- 1 x Manual

KEY FEATURES

- **Enhanced Protection:** Shields UV light tubes from impact and external elements.
- **Durable Material:** Made from high quality plastic to ensure long term reliability.
- **Easy Maintenance:** Comes with a cleaning brush for simple upkeep.
- **Simple Installation:** Includes screws for quick and secure attachment.
- **Lightweight Design:** Designed for easy handling and mobility.

USAGE INSTRUCTIONS

- **Detach:** Unscrew and remove the existing protective grid from your Tiger With LED Flying Insect Trap.
- **Clean:** Wipe down the area where the new grid will be installed to remove any dust or debris.
- **Attach:** Align the new Tiger Protective Grid with the designated slots and secure it using the provided screws.
- **Check:** Ensure the grid is properly positioned to prevent insects from escaping while maintaining full UV light efficiency.
- **Maintain:** Regularly clean the grid with the included brush to keep airflow and visibility unobstructed.

APPLICATIONS

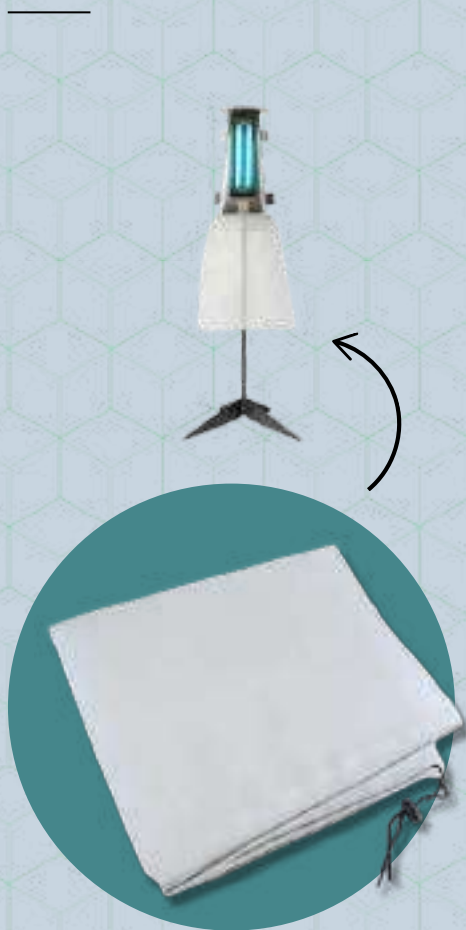

- **Replacement Part:** Ideal for maintaining the functionality of your Tiger Trap.
- **Device Maintenance:** Ensures continuous performance of the Tiger With LED Flying Insect Trap.

Why Choose the Tiger Protective Grid?

The Tiger Protective Grid offers a practical, durable solution to safeguard your Tiger With LED Flying Insect Trap. With easy installation and maintenance, it ensures reliable protection, extended device life, and uninterrupted pest control performance.

ABOUT

The **Tornado 20L Trap Bag** is a durable, high capacity replacement collection bag designed exclusively for use with the Tornado Flying Insect Eliminator by Trappen di Lorenzo Palma. Crafted from robust Perlon fabric, this essential accessory ensures efficient insect collection, hygienic disposal, and seamless integration with your device. Its reliable and user-friendly design helps maintain the performance and hygiene of your insect eliminator, making it a must have for effective pest control.

SPARE PARTS

TORNADO 20L TRAP BAG

TECHNICAL SPECIFICATIONS

- Brand: Trappen di Lorenzo Palma
- Material: Durable Perlon fabric
- Capacity: 20 liters
- Compatibility: Exclusively designed for the Tornado Flying Insect Trap
- Weight: Lightweight yet robust for long term use

WHAT'S IN THE BOX

- 1 x Tornado 20L Trap Bag
- 1 x Manual

KEY FEATURES

- **Perfect Fit:** Custom designed for the Tornado Flying Insect Trap to maintain optimal efficiency.
- **High Quality Material:** Constructed from durable Perlon fabric for long lasting performance.
- **Generous Capacity:** 20-liter volume reduces the need for frequent replacements.
- **User-Friendly Design:** Drawstring closure allows secure attachment and easy removal.
- **Hygienic Solution:** Enables clean disposal of insects without direct contact.

USAGE INSTRUCTIONS

- **Attach:** Secure the sack to your Tornado Flying Insect Trap using the drawstring closure.
- **Use:** Allow the device to operate, collecting insects efficiently into the sack.
- **Dispose:** When full, untie and remove the sack for hygienic disposal of contents.
- **Replace:** Attach a new sack to maintain optimal device performance.

APPLICATIONS

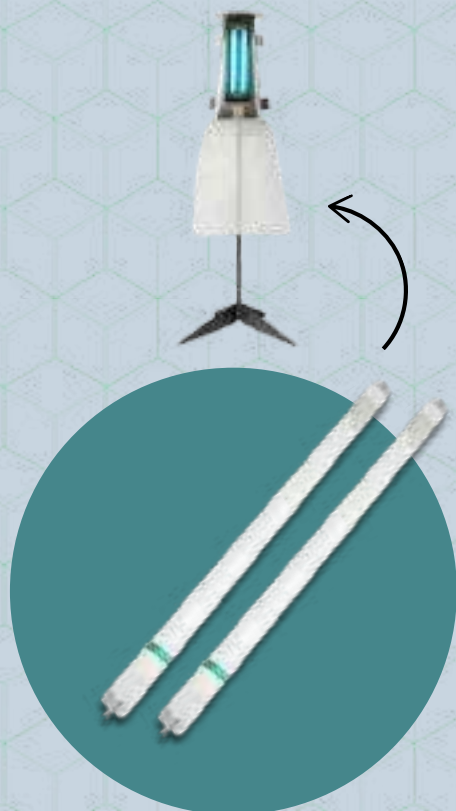

- **Replacement Part:** Ideal for maintaining the functionality of your Tornado Flying Insect Trap
- **Device Maintenance:** Ensures continuous performance of the Tornado Flying Insect Trap

Why Choose the Tornado 20L Trap Bag?

The Tornado 20L Trap Bag ensures the efficient performance and hygiene of your Tornado Flying Insect Eliminator. Its robust construction, large capacity, and easy to use design make it an indispensable accessory for uninterrupted pest control in both commercial and industrial settings.

ABOUT

The **Tornado Replacement UV Tubes** are high performance, shatterproof UV lamps specifically designed for the Tornado Flying Insect Trap. Engineered to ensure maximum insect attraction, these tubes provide superior efficiency and durability. The shatterproof design ensures safety in food sensitive environments, making them ideal for commercial and industrial applications.

SPARE PARTS

TORNADO REPLACEMENT UV TUBES

TECHNICAL SPECIFICATIONS

- Brand: Trappen di Lorenzo Palma
- Type: Shatterproof UV Tubes
- Compatibility: Tornado Flying Insect Trap
- Power Rating: 25 Watts per tube
- Quantity: 2 tubes per pack

WHAT'S IN THE BOX

- 2 x Tornado Replacement UV Tubes
- 1 x Manual

KEY FEATURES

- **Shatterproof Design:** Provides added safety during use and replacement, ideal for food sensitive environments.
- **Optimized Insect Attraction:** Emits UV light calibrated to attract flying insects effectively.
- **Long Lasting Performance:** Offers an extended lifespan, reducing the need for frequent replacements.
- **Energy Efficient Operation:** Ensures high performance with minimal energy consumption for cost effective use.
- **Perfect Compatibility:** Designed to integrate seamlessly with the Tornado Flying Insect Trap.
- **Convenient Packaging:** Sold as a pair for hassle free replacement.

USAGE INSTRUCTIONS

- **Turn Off:** Unplug the Tornado Flying Insect Trap to ensure safety.
- **Remove:** Carefully detach the used UV tubes by twisting them out of their sockets.
- **Install:** Align the new Tornado Replacement UV Tubes and gently insert them into the sockets.
- **Secure:** Twist to lock them into place, ensuring a firm fit.
- **Test:** Power on the trap to verify the new tubes emit the correct UV light

APPLICATIONS

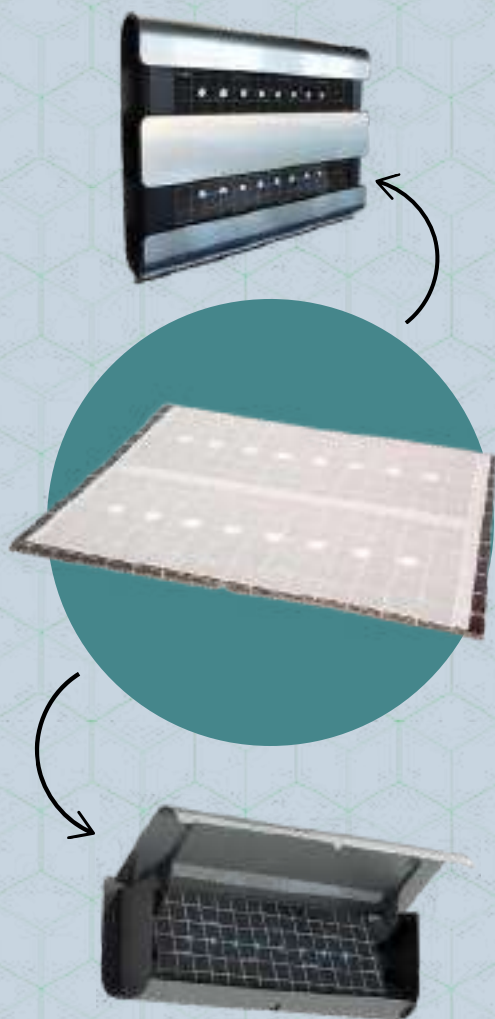

- **Replacement Part:** Ideal for maintaining the functionality of your Tornado Flying Insect Trap
- **Device Maintenance:** Ensures continuous performance of the Tornado Flying Insect Trap

Why Choose the Tornado Replacement UV Tubes?

The Tornado Replacement UV Tubes offer the perfect balance of performance, safety, and durability. With their shatterproof design, optimized UV technology, and seamless compatibility, they ensure your Tornado Flying Insect Trap continues to operate at its best, providing reliable and efficient pest control.

ABOUT

The **INFINITY INL288 Glueboard** is a high performance, durable solution for maintaining hygiene in sensitive environments like commercial kitchens, front of house areas, and food preparation zones. Designed for seamless compatibility with the Infinity 2000 or Infinity Compact, this glueboard combines advanced UV stabilization and patented technology for efficient fly trapping and effortless servicing.

SPARE PARTS

INFINITY INL288 GLUEBOARD

TECHNICAL SPECIFICATIONS

- Brand: INFINITY
- Model: INL288
- Dimensions: 15.6 x 12.2 inches
- Adhesive Lifespan: Up to 4 weeks per sheet
- Compatibility: Designed for the INFINITY 2000 & INFINITY COMPACT

WHAT'S IN THE BOX

- 1 x INFINITY INL288 Glueboard
- 1 x Manual

KEY FEATURES

- **Patented Glueboard Design:** Enhances trapping efficiency and securely retains flying insects, even under high UV exposure.
- **Silicon Coated Release Paper:** Allows easy removal without glue residue, ensuring mess free servicing.
- **UV-Stable Glue:** Resists drying out for up to four weeks and minimizes glue run for clean usage.
- **Loading Convenience:** Slides in effortlessly of the INFINITY 2000 or INFINITY COMPACT, enabling quick, tool free installation.
- **Durable Varnished Base:** Prevents glue absorption, ensuring longevity and consistent performance.

USAGE INSTRUCTIONS

- **Open:** Gently slide out the used INFINITY INL288 Glueboard from the INFINITY 2000 or INFINITY COMPACT.
- **Dispose:** Discard the used glueboard hygienically.
- **Insert:** Place the new INL288 Glueboard into the designated slot.
- **Adjust:** Ensure the glueboard is fully seated for maximum fly trapping efficiency.
- **Monitor:** Replace the glueboard every 4 weeks or when full.

APPLICATIONS

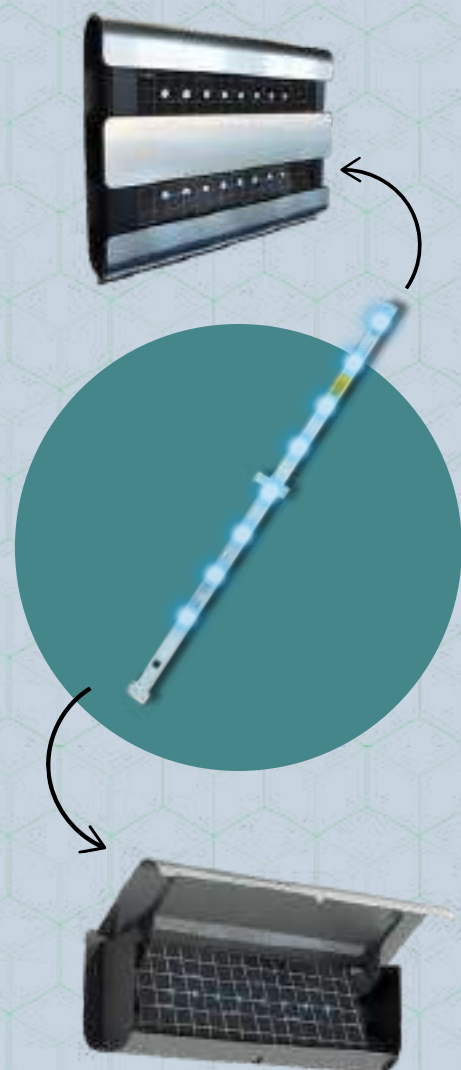

- **Replacement Part:** Ideal for maintaining the functionality of your INFINITY 2000 & INFINITY COMPACT.
- **Device Maintenance:** Ensures continuous performance of the INFINITY 2000 & INFINITY COMPACT.

Why Choose INFINITY INL288 Glueboard?

The INFINITY INL288 Glueboard is an industry leading solution for effective pest control. With its advanced adhesive technology, easy installation, and chemical free operation, it ensures a clean and pest free environment in food sensitive and commercial spaces.

ABOUT

The **INFINITY LEDS8 UV** Strip is a high efficiency lighting accessory designed to enhance the performance of the INFINITY 2000 or INFINITY COMPACT. Utilizing advanced UV-LED technology, this energy saving strip provides superior insect attraction while minimizing power consumption. Its durable construction ensures long lasting operation, making it a reliable replacement for traditional fluorescent tubes.

SPARE PARTS

INFINITY LEDS8 UV

TECHNICAL SPECIFICATIONS

- Brand: INFINITY
- Model: LEDS8
- Lifespan: Up to 3 years
- Energy Consumption: 8W UV-LED technology
- Compatibility: Designed for the INFINITY 2000 & INFINITY COMPACT

WHAT'S IN THE BOX

- 1 x LEDS8 UV Strip
- 1 x Manual

KEY FEATURES

- **High Efficiency:** Emits UV light calibrated to attract flying insects while reducing energy usage by up to 65% compared to fluorescent bulbs.
- **Long Lifespan:** Offers a 3-year effective life, minimizing replacements and maintaining consistent performance.
- **Compact Design:** Slim profile ensures seamless integration with modern systems like the Infinity 2000 & Infinity Compact.
- **Eco-Friendly & Mercury Free:** A sustainable alternative to fluorescent UV lamps, eliminating hazardous materials.
- **Durable and Reliable:** Heat resistant and wear proof, ensuring consistent UV output in demanding conditions.
- **Slim & Lightweight Design:** Allows for easy integration into modern fly traps, ensuring seamless replacement.

USAGE INSTRUCTIONS

- **Power Down:** Unplug the INFINITY 2000 or INFINITY COMPACT before proceeding.
- **Remove:** Carefully detach the old LED strip from the fixture.
- **Install:** Align the INFINITY LEDS8 UV strip and firmly press it into place.
- **Secure:** Ensure the strip is properly positioned for optimal UV coverage.
- **Test:** Switch the device back on to check that the new LED strip is functioning correctly.

APPLICATIONS

- **Replacement Part:** Ideal for maintaining the functionality of your INFINITY 2000 or INFINITY COMPACT
- **Device Maintenance:** Ensures continuous performance of the INFINITY 2000 INFINITY COMPACT

Why Choose the INFINITY LEDS8 UV?

The INFINITY LEDS8 UV Strip is an eco-friendly and energy efficient solution for enhancing the performance of your fly trap. With its long lasting design, low energy consumption, and mercury free composition, it provides a safe and sustainable way to maintain a pest free environment.
